## VT750 Lightweight Headset Communicator

### VT750 Lightweight Headset Communicator

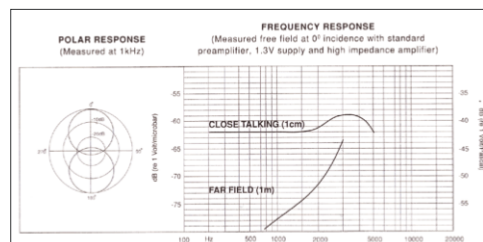

This inconspicuous and lightweight professional headset is ideal for TV, film, video, 2 way radio applications and noisy surroundings. The earplug replaces the muff type headset for lighter fit and gives 12 to 20dB protection from moderate noise. A one size fits all soft earplug is connected to the ear via the acoustic tube attached to the receiver. If desired, the other ear can be protected by a standard earplug.

An adjustable boom mic permits precise placement. The microphone is of a high sound quality noise cancelling electret type. The microphone capsule and boom are moisture protected by molded injection. The headband and speaker are sealed for protection against rain, dust and perspiration.

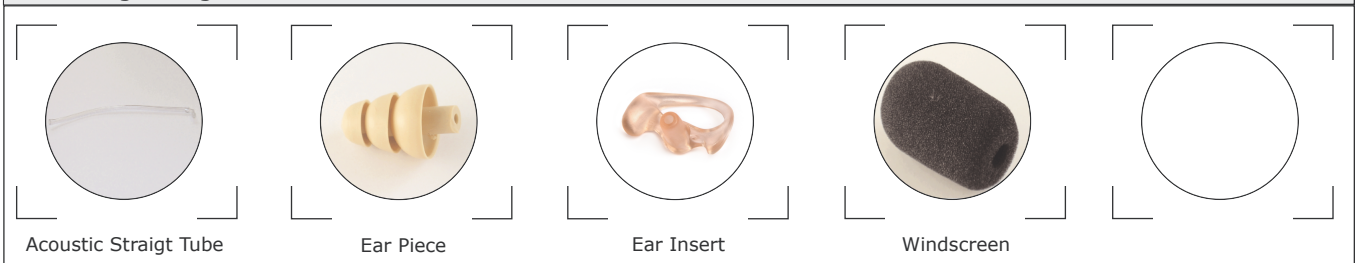

### VT750 Specifications:

Generating Element:	Back Electret Microphone
Polar Pattern:	Bi-Directional, Noise canceling
Frequency Range:	100Hz-5KHz
Sensitivity:	-38dB re 1V/Pascal Typical (2-wire)
Noise Level:	26dB "A" weighted
Max. Input SPL:	120dB
Impedance:	3kOhm
Bias/+VDC:	1.3V (1-20V)
Protection:	RFI Shielded & filtered, water resistant
Color:	black
Cable:	Length 90cm Ø 3.5mm
Weight:	45g
Wiring Configuration:	red: Speaker "-" silver: ground (Shield)
