

# PS-200 - POWER SUPPLY UNIT FOR INTERCOM WIRED BASIC SYSTEMS

(/media/k2/items/cache/42121f00ffc451d0c288e11c1f28cbd4\_XL.jpg)

Case will be 1U high x ¼ rack wide -110 mm- and about 150 mm deep. Rear panel includes an IEC connector w/fuse holder and a rocker mains switch. Front panel includes one XLR 3 male for CHA, one XLR 3 male for CHB, one XLR 5 male for A/B channels, one A/B link switch with led indicator and a BUZZer Kill switch with led indicator to allow the use in quiet shows as in theatres.

## PS-200 ACCESSORIES

### OR-1-200

The PS-200 power supply can be mounted with an optional blank ear panels **OR-1-200** set for rack installation. They are installed with the same PS-200 top cover screws.

The panels include pre-drilled holes for a convenient placing of up to two belt-pack size units as EM-201/EM-202, EB-200 or 4W2-200.
