Features

- Signal: Digital Interface - TMDS
- Input / Output: DVI-D / DVI- D
- Application: Connection between Computer sources and Digital displays
- Connectors Male / Female
- Supplied with: 1 x DVI-D M/M Cable of 1.8m/6ft (Ref. 11000)
- Powerful embedded Equalizer:
 - Resolution up to UXGA/60Hz and 1080p/60Hz
 - Max pixel rate: 165MHz
 - Compatible with DDC2
- Option: External power 5V - 300mA

Option

- > 12030: 100/250VAC 5V - 1A Universal external power supply

>> Compatible with DDC 2 but Not HDCP

Installation & Utilization:

The DVI extender is a high performance device. In to order maintain optimum performance, it is important to avoid exerting mechanical stress on the cable. Do not bend with a radius of curvature less than 9 inches. Do not install it on a winder, do not twist while winding. The cable has an inherent natural curve that must be followed while winding. Following these line guidelines will extend the life of the cable.

Warranty:

Analog Way warrants the extender DVI against any defects in material and workmanship for a periode of 8 days for the cable and the connectors and 1 year for the electronic device, from the date of purchase (back to the factory). **Analog Way** reserves the right to render this warranty null and void in case of abuse or misuse.
