

Flat panel portrait/landscape adaptor L&S5

Ref.: P3496

The flat panel portrait/landscape adaptor is the perfect solution for a dynamic presentation. In one easy motion the flat panel is rotated from landscape position to portrait position and vice versa. This separately available adaptor is easily fitted to the Audipack flat panel brackets and, thanks to its L&S mounting system, is compatible with all other Audipack flat panel mounting solutions. The adaptor can be used in combination with all Audipack presentation products equipped with the L&S system, such as floor stands and wall mounts.

Max. load 80 Kg

Equipped as standard with L&S 3+5 (M10) mounting points

Product weight 8 Kg
