

Theft delay Open Air projector housing Large

Ref.: P3898

Open Air theft delay housing for max. projector dimensions W515 x D480 x H165 mm.

Open-structured metal universal projector housing, available in several dimensions. The front side of the housing is entirely open and is locked by 2 anti-theft pins with discus locks. The pins can be put in 5 positions, so the lens is always free. An Audipack projector mount is required to fix the projector in the housing. A set of anti-theft nuts and bolts to fix the projector mount is delivered with the housing as standard. The housing is available in grey RAL 9006 or white RAL 9010. Other colours and their prices are available on demand.
