

GenCG Edit

Offline GenCG Software with Playback

New Features in 5.0

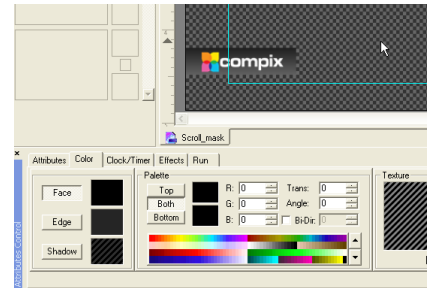

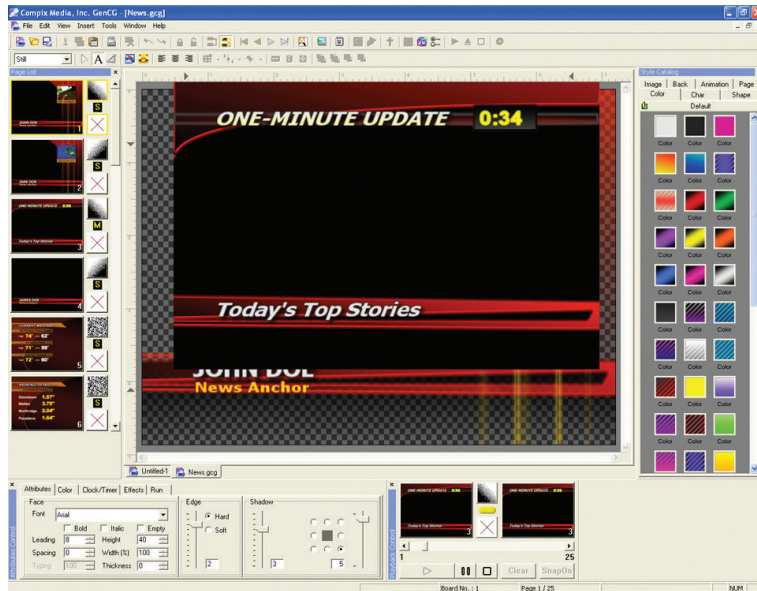

- ▶ Import Multiple Animation Elements to be Played Simultaneously
- ▶ Apply Animation Elements to Any Layer Inside MultiLayer Mode
- ▶ Enable Numeric Keypad for Text Input
- ▶ Numeric Keypad Shortcuts Inside Help

Create and Edit GenCG Files on Any PC

GenCG Edit is an offline version of GenCG, which is the standard application across all of our models. GenCG Edit not only enables you to create or edit GenCG files from any location, but also to view all the transitions applied to your offline creation directly on your VGA monitor.

- ▶ Images and animations embedded into page for easy transfer
- ▶ Multilingual support through Windows language options
- ▶ Over 260 transition effects including standard fade
- ▶ Built in customizable templates
- ▶ Import TGA, BMP, JPEG, GIF, PNG, and TIFF files
- ▶ User definable clock and timer
- ▶ Animation capability via sequential targa files
- ▶ Drag and drop frequently used images, text, and templates
- ▶ Adjustable safe guides for both 4:3 and 16:9 environments

GenCG Edit

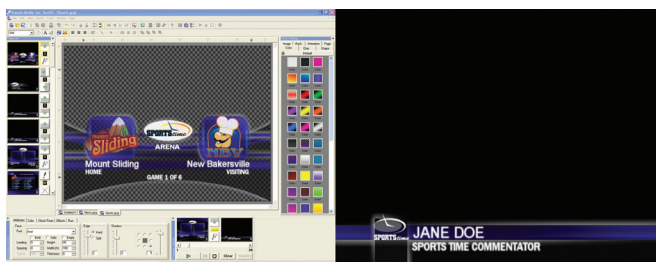

GenCG that Travels with You

Since this is essentially an offline GenCG software, you can seamlessly save and transfer your pages via network or USB drive to your Compix system for easy retrieval. Even if your Compix system has an earlier version of the GenCG software, you can save and use previous formats.

Compix Supports Education

For educational institutions, Compix Media has a special program allowing students, faculty, and staff to download and run unlimited copies of GenCG Edit on PCs. This is a great learning tool for creating graphics on your character generator without occupying the Compix system. Because an unlimited number of users can work with the software at once, GenCG Edit is a great tool for promoting a collaborative and creative environment.

One free GenCG Edit software is available per Compix system, but additional software can be purchased as necessary.

Compatible Graphic Cards

- ▶ ATI RADEON 9550,9600,9700,9800
- ▶ ATI RADEON X300,X550,X600,X700,X800,X850
- ▶ nVIDIA Geforce 6200,6600,6800,7800
- ▶ nVIDIA Geforce PCX 5300,5750,5900
- ▶ nVIDIA Geforce FX 5200,5500,5700,5900

Software Options

Compix has created software titles that work specifically with Compix live video graphics solutions. This insures 100% compatibility, reliability, and quality.

Our suite of software, GenCG, NewsScroll, and AutoCast, are designed to be user friendly yet have the broadcast logic you need to get the job done.
