

ITC-100

Intercom System

In the production studio, good communication between the director, cameraman, lighting and control room is essential to produce a polished end result.

The Datavideo ITC-100 Intercom System provides 8-Way talkback and tally indicators. The director can select to talk to an individual channel or to all channels simultaneously.

The ITC-100 is a standard 19" 1U rack design, so it is easy to integrate into any rack system for using in the field or studio. ITC-100 includes 4 ITC-100SL Belt Packs.

* When ITC-100 used with SE-800, RMC-140 or RMC-90 required to enable Tally Light feature
