

MS-500 - Mobile Studio

The Datavideo MS-500 is a one box solution designed around the SE-500 4-channel vision switcher. The MS-500 system is both flexible and affordable, with specifications that can meet any budget or demand and is perfect for applications within education, places of worship, internet streaming, event & live staging conferences and many more. The whole system is fully integrated with the ITC-100 for talkback / intercom, TLM-702 for SE-500 unique quad preview, next source and main output monitoring.

Easy setup & break down on location. One box solution for "live in seconds" at any Conference, Studio, Outside Broadcast or Internet Streaming.

Output options include: Component (Y.U.V) which could be connected to a DVD recorder or projector.

Components:

SE-500

Digital Analogue Mixer/Switcher

4-input Y/C (S-Video) and Composite (RCA) video switcher / mixer with a unique quad preview output, allows display of all 4 video sources on a single monitor with on-screen tally light indication.

ITC-100

Talkback / Intercom

8-channel full duplex talkback / intercom system. Supplied complete with 4 units of cameraman beltpack, headset/microphone & tally indicators.

TLM-702

2 x 7" TFT LCD Monitor

TLM-702 utilises the SE-500 unique quad preview output, allowing users to monitor all 4-input sources on one of the high quality 7" TFT LCD Monitors, while displaying the master output on the second 7" TFT LCD monitor.

DVD Recorder Shelf

(DVD Recorder not included)

Using the Datavideo Rack Shelf allows easy integration of any DVD Recorders.

Features:

Sliding Shelf

Bespoke sliding shelf designed for SE-500
