Stretch It, Switch It, Split It. Gefen's Got It.
Breaking New Ground. Once Again.

4x CAT-6 EXTENDER FOR HDMI

SKU: EXT-HDMI1.3-CAT6-4X

Single box solution for extending and controlling up to four Matrix outputs – companion product for 4x4 Matrix for HDMI 1.3.

- Will send a 1080p@60Hz HDMI 1.3 signal, w/Deep Color support, over a single CAT-6 cable up to 175ft
- Controlled by local top panel, IR, or RS-232

8x CAT-6 EXTENDER FOR HDMI

SKU: EXT-HDMI1.3-CAT6-8X

Single box solution for extending and controlling up to eight Matrix outputs – companion product for 8x8 CrossPoint Matrix for HDMI 1.3.

- Will send a 1080p@60Hz HDMI 1.3 signal, w/Deep Color support, over a single CAT-6 cable up to 175ft
- Controlled by local top panel, IR, or RS-232

2x2 DUAL DISPLAYPORT KVM SWITCH

SKU: EXT-DPKVM-422

Switches between two computers using two DisplayPort graphics port each for side by side displays used in extended desktop application. With USB and audio switched as well.

- Supports resolutions up to 3840x2400@60Hz
- Compact connector for easier installations

DVI VIDEO WALL CONTROLLER

SKU: EXT-DVI-VWC-242

Creates a large, four display video wall using one DVI input and four DVI outputs supporting high resolution video up to 1080p@60Hz full HD.

- Split & scale a single DVI source up to four displays
- Supports resolutions up to 1080p, 2k, & 1920x1200@60Hz

HI-DEF DIGITAL SIGNAGE PLAYER

SKU: EXT-HD-DSP

Easy-to-use software, scalable distribution, & control using multiple players, makes this the simplest & most cost efficient digital signage solution available.

- Selectable output resolution up to 1080p@60Hz, portrait and landscape displays are supported
- Individual content playback can have multiple time, day, and month settings

DIGITAL SIGNAGE CREATOR

SKU: EXT-DSC

Capable of creating combinations of media elements from a rich set of formats – audio, video, vector graphics, pictures and text.

- Users can write scripts to control A/V content, layer multiple videos and pull RSS feeds off the Internet
- Outputs content as HDMI and VGA with L/R audio

WHAT IS GEFEN PRO?

Gefen PRO is a new product line designed for broadcast, rental, and staging applications where there is a need for a robust construction, internal power supply and professional customer support. Initial Products packaged under the Gefen PRO line include:

- 8x8 DVI Dual Link Matrix
- 10x4 DVI Matrix
- 16x16 DVI Matrix w/Internal Power Supply
- 16x16 3GSDI Matrix
- 3GSDI Fiber Optic Extender

GEFEN PRO 8x8 DVI DUAL LINK MATRIX

SKU: GEF-DVI-848DL

Eight computers using the Dual Link DVI format can be switched to any eight flat panel displays.

- Supports resolutions up to 3840x2400, Programmable EDID for each input
- Unit can be controlled either by RS-232, IR, Ethernet, or local front panel buttons

GEFEN PRO 10x4 DVI MATRIX

SKU: GEF-DVI-1044DL

Up to ten computers using the Dual Link DVI format can be switched to any ten flat panel displays.

- Supports resolutions up to 3840x2400, Programmable EDID for each input
- Unit can be controlled local front panel only

GEFEN PRO 16x16 DVI MATRIX w/INTERNAL POWER SUPPLY

SKU: GEF-DVI-16416

CrossPoint matrix to access from sixteen displays from any sixteen computers using DVI connectivity.

- Supports resolutions up to 1080p, 2k, and 1920x1200
- Controlled by local front panel, IR, RS-232, and IP control

GEFEN PRO 16x16 3GSDI MATRIX

SKU: GEF-3GSDI-16416

CrossPoint connectivity between any sixteen sources & sixteen destinations using the 3G-SDI format makes this matrix switcher ideal for broadcasters, rental, & staging environments.

- Supports resolutions up to 1080p Full HD
- Each source can be viewed on one or all outputs simultaneously, perfect for detail production work

GEFEN PRO 3GSDI FIBER OPTIC EXTENDER

SKU: GEF-3GSDI-FO-141

Fiber optic 3G-SDI digital video transport system, supporting 1080p, 3G-SDI format, extending 3G-SDI over long distances using single-mode fiber optic cable.

- Extends 3G-SDI up to 10Km
- Transports multi-rate HD-SDI Digital video over one ST-ST fiber (single mode)
