

C-XTAP2

PRODUCT DESCRIPTION

The C-XTAP is a DC cable utilizing the X-Tap, the new standard connector for powering 7.4V accessories from the SSL-JVC75 (<http://www.idxtek.com/products/ssl-jvc75>) and future IDX power products. With the open lead design, the C-XTAP is capable of powering virtually all 7.4V accessories. Simply solder your desired connector to the positive and negative leads. The “T” Terminal is placed for future use.

PRODUCT FEATURES

SUPPORT

MEDIA
