

VL-DT1

PRODUCT DESCRIPTION

The VL-DT1 is a single channel, low cost, portable charger designed to charge batteries with an D-Tap Advanced port. The D-Taps Advanced three pin design monitors the cell status to ensure correct, controlled charging which prolongs battery life.

PRODUCT FEATURES

- Single channel D-Tap battery charger
 - Three pin safe charge design
 - Compact, lightweight design – similar to the size of an AC-Adaptor
 - VL-DT1 compatible batteries: All ENDURA V-Mount Lithium Ion batteries with D-Tap Advanced
 - LED Display is positioned on the top of the charger for quick visual confirmation of charging mode
 - Universal AC input voltage for worldwide operation.
-
