

DS2 Beholder 3-Axis Gimbal Stabilizer with Encoders

UPC: 847983022724

Overview

The Ikan Beholder DS2 is the successor to the popular DS1. The DS2 is designed specifically for professional filmmakers looking for a single handheld stabilizer for a large range of small cameras weighing up to 5 lbs. The DS2 features a 60 second Auto-Sweep mode, which allows you to program a 60 second camera movement.

The Beholder DS2 is lightweight, easy to use, and can be carried in your camera bag. In addition, the DS2 is versatile enough to be used with a DSLR, mirrorless camera, GoPro or smartphone.

Special Features

- Durable all aluminum construction
- 360 Degree movement from pan axis
- Work with cameras up to 5 lbs (2267 g)
- 60 Second auto-sweep mode
- Equipped with 3-axis gyro stabilized brushless motors to balance most mirrorless cameras as well as smartphones and GoPro cameras
