

KC-Lite 8.0 Crane

The Kessler KC-Lite 8.0 is a high quality crane at an affordable price. For the filmmaker shooting on a tight budget, using a lighter digital video or DSLR camera under 10 pounds, the KC-Lite is the highest quality camera crane in the sub \$400 price range.

The Kessler KC-Lite 8.0 is a high quality crane at an affordable price. For the filmmaker shooting on a tight budget, using a lighter digital video or DSLR camera under 10 pounds, the KC-Lite is the highest quality camera crane in the sub \$400 price range.

Lightweight and Durable

Based off the design of our standard dual-rail KC series of camera cranes, the KC-Lite is a 100% tool-less, single rail crane that is light-weight and portable, yet has the heft where it counts like the 3/8" thick ultra rigid mounting plate.

Perfect for DSLR

For rigs under 10 lbs, there isn't a better crane for the money. Filmmakers often have to sacrifice quality for quantity when building their gear arsenal, the KC-Lite eliminates that concern by providing an excellent jib solution at an economy price.

Fluid Drag

Unlike other cranes in this price range the KC-Lite mounts to your fluid head in a way that utilizes the fluid drag of the head's pan and tilt giving the best control and fluid like movements in all 3 modes of crane operation (manual tilt, fixed-angle mode, & automatic mode).

Lifetime Warranty

Backed by our manufacturer's Lifetime Warranty, we guarantee that it is free from defects in material and workmanship, otherwise we'll fix it.
