

## Pocket Jib

The Kessler Pocket Jib™ is the ultimate compact, portable jib. Boasting a telescopic dual rail arm design that has a maximum reach of five feet and load capacity of 20 lbs when fully extended and 40 lbs when at its shortest extension.

### Description

The Kessler Pocket Jib™ is the ultimate compact, portable jib. Boasting a telescopic dual rail arm design that has a maximum reach of five feet and load capacity of 20 lbs when fully extended and 40 lbs when at its shortest extension.

#### Dual Purpose Production Tool

Not only is the Pocket Jib a world class jib it can also mount Kessler sliders, turning it into a virtual ""all-in-one"" production tool, offering both a jib and mini-dolly in one unit

#### Quick Set Up

Ease of packability and minimum set-up time required for the Pocket Jib maximize its versatility. Perfect for studio or in-the-field applications.

### Drag Control

Included drag control provides increased control for users to attain the smoothest shots possible. Because the tension is adjustable, each user can fine tune the necessary drag for their rig and application.

### Locking Mechanism

When the Pocket Jib isn't in use or a static shot is required, the included locking pin allows users to securely lock the jib in place, protecting equipment and removing movement from the Jib.

### Lifetime Warranty

Backed by our manufacturer's Lifetime Warranty, we guarantee that it is free from defects in material and workmanship, otherwise we'll fix it.
