

WSI-1VGA

Wall Plate Insert – 15-pin HD Step-In Module

The WSI-1VGA is a step-in remote control panel for VGA and unbalanced stereo audio signals. The dual-insert module fits into any TBUS or wall plate and is used for remotely taking control of a compatible switcher, such as the VP-81KSi.

FEATURES

Input/Output - VGA and unbalanced stereo audio.

Remote Step-in Switching - Illuminated button remotely switches the VP-81KSi.

WSI-1VGA
