

## R FR 5001 - Fan Front Cover Upgrade for R FR 5010

### Features

- Supplemental cooling solution for R FR 5010 Rack Frame
- Replaces existing front cover
- Ultra quiet DC micro fans
- Fans are alarmed and monitored by control system

### Description

Designed to provide extra cooling airflow into the front of the R FR 5010 rack. Low noise DC fans with fan failure LED indication as well as monitoring capability through the control system.

This cover is recommended for systems with a high percentage of complex processing cards.

**Note.** This item is for existing R FR 5010 Rack Frames which require upgrade. Please check with your sales representative to ensure compatibility with your rack (provide serial number). For new systems please order

*R FR 5011 which has the fan front included.*
