

V-LCD51

5" Small 800 x 480 Camera-Top / Portable Field Monitor with HDMI

The portable V-LCD51 is the perfect solution for DSLR and video professionals seeking to capture their best shots. Don't be fooled by higher screen resolution or sizes. Our picture performance, feature set, customer service, and experience is why the industry's leading photographers, videographers, and camera operators prefer Marshall over the competition.

The V-LCD51 5" monitor is packed with features found in more expensive models. This compact LED-backlit confidence monitor offers amazing picture performance and excellent viewing angles for users simply looking for a portable, yet versatile monitoring solution. The V-LCD51 offers standard features including a wide variety of formats and markers, 4 user-configurable front panel function buttons, RGB Check Field / Field Detect, RGB gain and bias control. Major features include Marshall's industry leading FALSE COLOR and PEAKING Filters, along with Image Flip, Freeze Frame, and HDMI Auto Color Space and Ratio detect.

This unit is battery-powered in the field using any one of 9 different available battery adapters for great flexibility and portability. An AC power supply is also included. The bottom 1/4"-20 mount allows this lightweight unit to be mounted to most DSLRs, cranes, and jibs.
