

30 GB F Series P2 Card | AJ-P2E030FG

The F Series supports writing up to AVC-Intra Class 200 of the AVC-ULTRA family as well as the currently available codecs with the existing P2 devices.

High Reliability, Fast Transfer Speed and Large Data Storage Capacity

- Complies with the Type-II PC Card Standard (Card Bus) for direct plug-in to the PC card slot of a laptop PC.
- Highly reliable, solid-state memory resists shock, vibration, and temperature changes.
- Ensures a long service life with repeated recording and initialization.
- Card replacement interval is about five years when entire (100%) data is rewritten once a day.
- An individual serial number, bar code, and write-protect switch make easy to manage operations.
- The P2 card transfers data at a high speed up to 1.2 Gbps (Transfer speed is subject to be changed depended on system configuration).
