# Excellent Live Operability Meets Creativity

## Excellent Value System Capability

### 32 SDI and two DVI inputs, 16 SDI outputs\*

Despite its compact 3RU body, this mainframe provides wide variety of inputs/outputs with frame synchronizer, format converter, and color correctors.

Colors can be adjusted to correspond to different video source formats, camera properties, and displays, enabling trouble-free production.

#### [Input]

- 34 inputs in total, with 32 SDI and two DVI inputs.
- All SDI inputs are provided with a 10 bit frame synchronizer.
- Eight inputs equipped with color correctors.
- Four inputs equipped with up-converters. Signals can be delayed by up to eight frames.

#### [Output]

- 16 SDI outputs with two outputs per channel.
- Four outputs equipped with color correctors.
- Two outputs equipped with downconverters.

\*Some functions differ when 3G mode is selected. See page 5 for details.

#### Control Panel Rear Terminal

#### Supported Formats

	Input		Output SDIx16
	SDIx32	DVI-Dx2	
SDI	480/59.94i, 576/50i	●	●
	1080/59.94i, 50i	●	●
	720/59.94p, 50p	●	●
	1080/24PsF	●	●
	1080/23.98PsF	●	●
	1080/25PsF, 29.97PsF	●	●
	1080/59.94p, 50p (3G mode)	*	*
DVI-D	XGA 60Hz	●	—
	WXGA 60Hz	—	—
	SXGA 60Hz	—	—
	WSXGA+ 60Hz	—	—
	UXGA 60Hz	—	—
	WUXGA 60Hz	—	—
	1080/59.94p, 50p	—	—
	1080/59.94i, 50i	—	—
	720/59.94p, 50p	—	—

#### Mainframe Rear Terminal

## System Functionality\*1

32 SDI and two DVI inputs and 16 SDI outputs, with a wide variety of keyers and DVEs. Versatile transition modes and extensive video production features are achieved with high cost effectiveness. Functions are scalable using plug-in software.

## Operability

Intuitive operation is realized by Multi-Selection Panel, cross point buttons with color grouping function, and a OLED source name display panel. These function to enhance visibility helps quick and accurate switching.

## Reliability

The power supply for the mainframe and control panel is redundant. Up to three panels can be operated through an IP connection to provide stable system operation.

\*1: Some functions differ when 3G mode is selected. See page 5 for details.

2ME Live Switcher  
AV-HS6000

## Three types of Control Panels

Control Panel AV-HS60C1/AV-HS60C2

Control Panel AV-HS60C4

Model no.	ME Number	XPT	Power Supply	Width
AV-HS60C1	2 ME	24 XPT	Single Power Supply	980 mm (38-19/32 inches)
AV-HS60C2	2 ME	24 XPT	Redundant Power Supply	980 mm (38-19/32 inches)
AV-HS60C4	2 ME	16 XPT	Redundant Power Supply	656 mm (25-13/16 inches)

# Effects to Enhance Your Creativity

## Diverse DVE Transitions\*1

In addition to wipe, mix, and cut transitions, DVE transitions with 3D DVE 2ch, such as size reduction and sliding, can be performed. Diverse rendering of image effects such as mosaic or defocus are possible.

- 4ch of 3D DVE and 2ch of 2D DVE systems are provided to support background and keys for each ME. \*1: Some functions differ when 3G mode is selected. See page 5 for details.

## Various Keyers\*2

Featuring variety of keyers, HS6000 supports creative live content creation. A luminance key, linear key, chroma key, full key, and PinP are provided for 4ch per ME (8ch in total), plus 4ch of DSK, for a total 12keyers, with 4ch of upstream key (USK).

- **Chroma key:** By implementing the Primatte®<sup>3</sup> algorithm, real time and high quality key composition are possible.
- **PinP:** 4ch per ME (8ch total). Through the flying key effect, move, expand and shrink the input key signals using DVE effects.
- **Key preset:** Key Preset function allows easy store and recall of the settings for key. Four settings for each channel of key and four settings for each channel of DSK can be registered.
- **Upstream key:** 4ch of USK are convenient for usage such as adding the CG sources to fill the gap of 4:3 image to 16:9 image.
- **Downstream key:** 4ch are available. Can be assigned to PGM1/PGM2.

\*2: Some functions differ when 3G mode is selected. See page 5 for details.

### Key Types

	USK	KEY	DSK
Luminance key	✓	✓	✓
Linear key	✓	✓	✓
Chroma key		✓	
Full key		✓

### Display Example of Using Upstream Key

### Display Example of using Downstream Key (Example of multi-language broadcasting)

## Memory Functions\*1

Using memory function, setting, video and effects can be easily stored and recalled. It allows quick operation of switching and recalling effects in live video production, supports efficient operation and making it easy to perform video effects for more complicated operations.

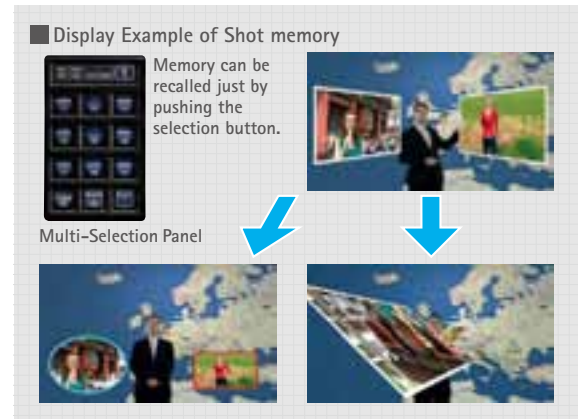

- **Shot memory:** This function recalls background transition patterns or other video effects, including PinP size, position, border width, and key on (maximum of 81 memories). Effect dissolve can be set to ensure smooth switching from the current effect to the next effect registered in shot memory.
- **Event memory:** This function allows continuous image effects to be registered and played back in a timeline.
- **Macro memory:** This function allows record and playback of a series of operations on the Control Panel. It can also record and playback setting information, such as input/output and keyers. Macro memories can be played back by assigning them to the cross point buttons, such as macro bus, PGM, and PST.
- **Video memory:** Moving image (Clip) and still image (Still) can be recorded in 4ch each (maximum of 81 memories\*2) for use as video sources. Maximum 60 seconds of moving images can be saved in standard mode, and Maximum 30 seconds in high image quality mode. Moving image (Clip) allows audio recording and playback.

\*1: Some functions differ when 3G mode is selected. See page 5 for details.

\*2: Storage module is required separately.

## Intuitive Switching

- **Multi-Selection Panel:** A color panel that can display thumbnail images with high visibility. The switches provide a tactile response which allows quick and precise memory operation.
- **Animation wipe:** With moving images (clip) and still images (still) recorded in video memory, animation wipes can be created easily.

## Animation Wipe Examples

## Split Screen Outputs to Fit the Setup

### Built-in 4ch MultiViewer Function\*3

An independent 4ch MultiViewer output function is provided as standard, enabling displays of up to 16 split screens (a total of nine patterns). All of these functions are available without the need for a specialized device.

- MultiViewer can be selected from a total of nine patterns, including four split, five split (two patterns), six split (two patterns), nine split, 10 split (two patterns), and 16 split.
- Source names, tallies, audio level meters, clock and safety markers can be displayed.
- Select between fit mode, in which the video image is the same size as the split frame, and squeeze mode, which places the source name and level meter outside the image.

\*3: Some functions differ when 3G mode is selected. See page 5 for details.

MultiViewer examples

Squeeze mode display example

# Flexible Scalability and Secure Operability

## System Scalability\*1

\*1: Some functions differ when 3G mode is selected. See "3G format compatibility" for details.

- 16 AUX buses are provided. MIX transition is available from the AUX1 to AUX4 buses.
- The system can be operated from a PC via a network connection.
- Various interfaces and plug-in software installation capability to expand the connectivity with other devices. Five plug-in software is provided and customized plug-in software can be created using SDK.

### Plug-in software provided

\* For information on downloading plug-in software, see "Software download" on the Panasonic website (<http://pro-av.panasonic.net/en/>).

### EXT\_Control

This software allows sending and receiving information on source switching or source name for AV-HS6000 buses between external devices such as system controllers or tally interfaces connected via network.

### P2\_Control

This software allows connection and control of Panasonic P2 devices via RS-422 serial communications.

### GVG200

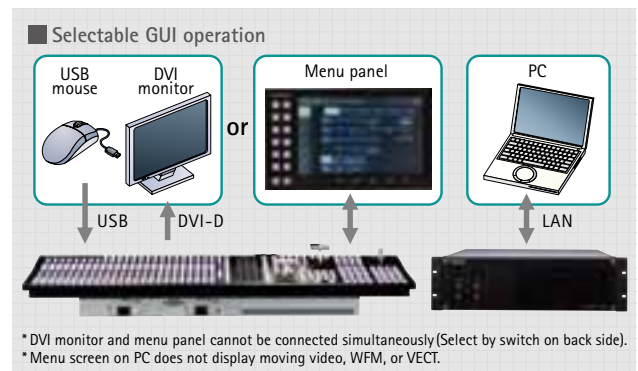

This software allows control such as crosspoint switching or transition on GVG200 protocol compliant external controllers, editors, etc. by RS-422 serial communications. (External controllers and control software are sold separately.)

### AUX\_IP

This software allows crosspoint switching from a remote operation panel (VS-R45) via an IP network. (VS-R45 is a product of Venetex Corp.)

### Serial TALLY

This software provides tally output and source names to an external tally display or interface by RS-422 serial communications with UMD protocol Ver. 3.1 compliant devices.

## Backup System for Peace of Mind

- A redundant power supply is provided for the mainframe and control panel.
- Operation of up to three control panels is possible through an IP connection.
- ME rows can be switched by swapping the ME panel and changing the output of the system when ME faults.
- A web browser is provided to allow access to the GUI menu from a remote PC.
- System settings and memory information can be stored on SD cards, PC's, and other optional storage devices.

## 3G format compatibility

AV-HS6000 can be used as a 1.5 ME switcher compatible with 3G video formats when it is set to 3G mode.

### Functions supported by format

		Standard mode	3G mode
Signal formats		1080/59.94i, 1080/50i, 1080/29.97PsF, 1080/25PsF, 1080/24PsF, 1080/23.98PsF, 720/59.94p, 720/50p, 480/59.94i, 576/50i	1080/59.94p, 1080/50p
Input function	Number of SDI inputs	32	16
	Number of DVI inputs	2	0
	Number of up-converter channel	4	0
	Dot by Dot	Possible	Not possible
	Number of delay function channel	4	2
	Number of color corrector channel	8	4
Output function	Number of upstream keyer channel	4	2
	Number of SDI output	16	8
	Number of down-converter channel	2	0
ME1 function	Number of color corrector channel	4	2
	Number of utility bus	2	1
ME2 function	BKGD transition pattern (SQ, SL, 3D)	Possible	Not possible
	IMAGE	Possible	Not possible
	Number of keyer	4	0
	Number of utility bus	2	0
Number of DSK keyer		4	2
Number of still image (Still) memory channel		4	2
Moving image (Clip) memory function	Number of channel	4	2
	Recording time per channel (standard image quality)	Approximately 60 seconds	Approximately 30 seconds
	Recording time per channel (high image quality)	Approximately 30 seconds	Approximately 15 seconds
Number of MultiViewer		4	2
Number of AUX		16	8

# Easy Direct Switching by Touch and Mouse Operations

## Software Control Panel AV-SF6000 (Free download)

The AV-HS6000 control panel is also available as a PC based application software. Equipped with the MJPEG codec, it allows display of video and image in the application. Intuitive and simple operations while viewing source video or using the display as a sub-panel is possible.

\* For information on downloading software control panel, see "Software download" on the Panasonic website (<http://pro-av.panasonic.net/en/>).

## System Composition Example

### Mode selection part

- Switches between Control Mode, Menu Panel, and Video Status modes.
- Displays mainframe communications status and error status.
- Switches between connected mainframes by inputting the IP address.
- Allows free arrangement of sources displayed on the input and output windows.

### Input and output windows

- Displays PGM and PST for the selected ME.
- Displays DSK PGM1 for PGM when PGM (+DSK) button is selected.
- Displays Next Transition setting status superimposed on window for PST.

### Control Mode screen

### Page button

- Switches display of operation panel part.

### Operation panel part-1

- Operates transitions (fader, AUTO, CUT).
- Selects key type and transition type for KEY 1 to 4 and sets transition time.
- Sets key type for DSK 1 to 4.
- Displays thumbnail for source assigned to KEY and DSK.

### Operation menu part

- Switches ME to be operated.
- Selects PST, PGM, UTIL 1 to 2, and KEY 1 to 4.

### Source assignment part

- Selects movie to be assigned to the bus selected with operation menu part.
- A total of 54 sources can be displayed on three pages by displaying 18 sources on one page and switching pages.
- Displays tally status in red and green frames.

### Operation panel part-2

- Controls shot memory, event memory, and macro memory.
- Video memory (still/clip) can be controlled.
- Stills and clips can be loaded from the built-in SSD or a PC.

## Examples of Other Major Screens

### Menu Panel screen

Displays menu panel operation display, showing ME1, ME2 and PGM on left side. It is possible to operate menu panel or to check the result while checking the PGM output.

### Video Status screen

Video sources of all inputs, all outputs, all buses, and MultiView screen are displayed in a list.

# Operability Enhanced with Ergonomics

The graphical user interface combines excellent visibility with ease of operation

## Control Panel

AV-HS60C1 (single power supply model)

AV-HS60C2 (redundant power supply model)

### ME1 KEY bus selector buttons (KEY BUS DELEGATION)

- Switches bus column and functions operated by ME1 KEY bus
- 1. Select KEY 1 to 4 key source/key fill bus  
(key source/key fill link coupling function available)
- 2. Select AUX1 to 16 bus (AUX1 to 4 support the MIX transition function)  
(AUX bus 1/2 to 15/16 have the crosspoint link coupling function)
- 3. Select Display <DISP> bus<sup>1</sup>  
(\*1: This bus selects images to be displayed on Menu Panel (AV-HS60C3))
- 4. Select Utility bus<sup>2</sup>  
(\*2: This bus selects sources to be inserted in border background or key edge)
- 5. Select MACRO bus<sup>3</sup> (\*3: This bus plays back the macro memory)

### KEY bus crosspoint buttons

- Select source for the bus switched with KEY bus select buttons
- Can playback macro memory

### Source name display panel

- Displays crosspoint numbers, source display names, and macro names. Bit map characters can be displayed for source names

### Crosspoint buttons

1. Eight colors can be used for grouping to matched sources
2. Switching is possible among 24 crosspoints x four pages  
(96 total crosspoints)
3. Assign and play back the macro memory

### ME2 KEY bus selector buttons (KEY BUS DELEGATION)

- Switches bus column and functions operated by ME2 KEY bus
- 1. Select KEY 1 to 4 key source/key fill bus  
(key source/key fill link coupling function available)
- 2. Select DSK 1 to 4 key source/key fill bus  
(can be assigned to PGM1/PGM2)
- 3. Select Utility bus<sup>2</sup>  
(\*2: This bus selects sources to be inserted in the border background or key edge)
- 4. Select MACRO bus<sup>3</sup> (\*3: This bus plays back the macro memory)

## Multi-Selection Pa

# Menu Panel

AV-HS60C3G

The touch screen allows quick and easy menu operation in either full screen or split screen (WFM/VECT).

A physical keypad is also available.

The physical keypad can be used instead of the Menu Panel.

The touch panel and DVI monitor do not display moving video, WFM, or VECT.

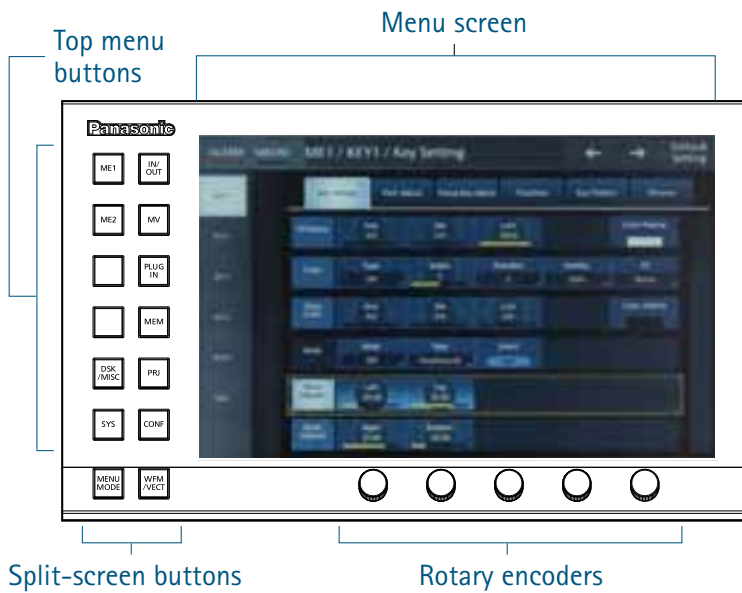

VECT

Positioner area

operation area

## Menu Panel

## Memory Card Slot

- Settings and log data can be stored/accessed on an SD memory card or SDHC memory card

\*SD memory card and SDHC card are sold separately

## Positioner

- Provides cursor operation for positioning WIPE / PinP, size adjustment, chroma key

## Transition

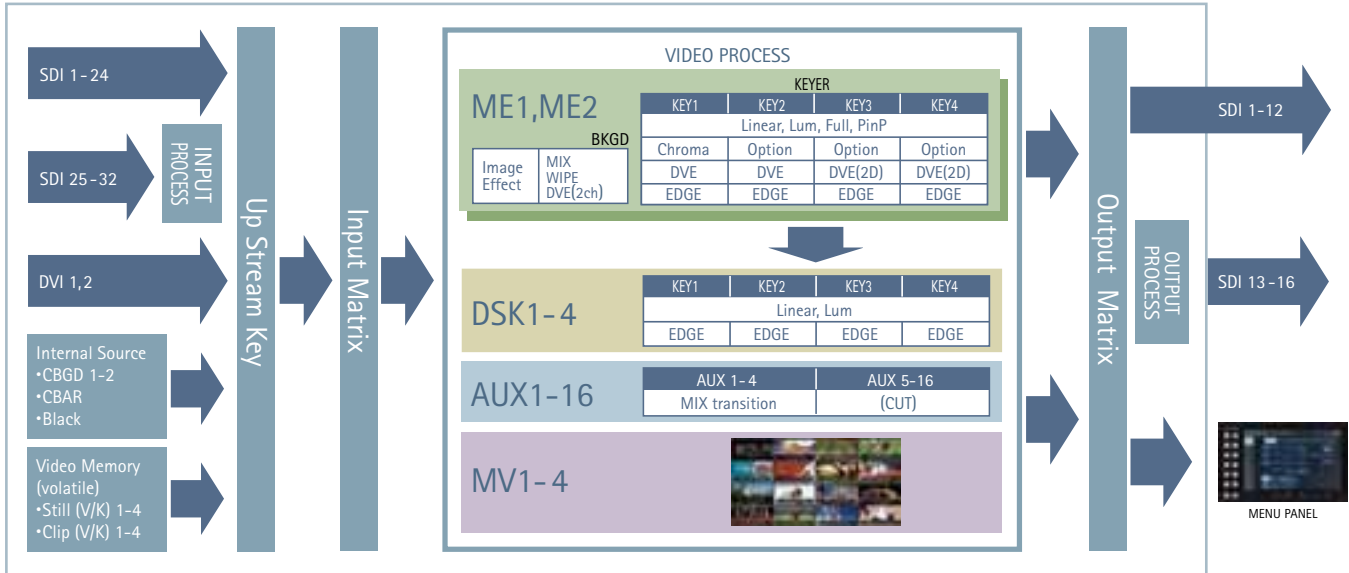

- Background/key transition: operate fader, AUTO, or CUT transitions
- Select transition type: select from WIPE, MIX, or NAM transitions
- Switch on/off the macro memory attachment function (macro attach): enable/disable the macro memory play back trigger assigned to PGM bus, PST bus, or AUX bus buttons
- Fader play back of the event memory (EMEM link): performs fader operation of the event memory
- ME change: switches the Control Panel ME1/ME2 columns

## Key, DSK operation

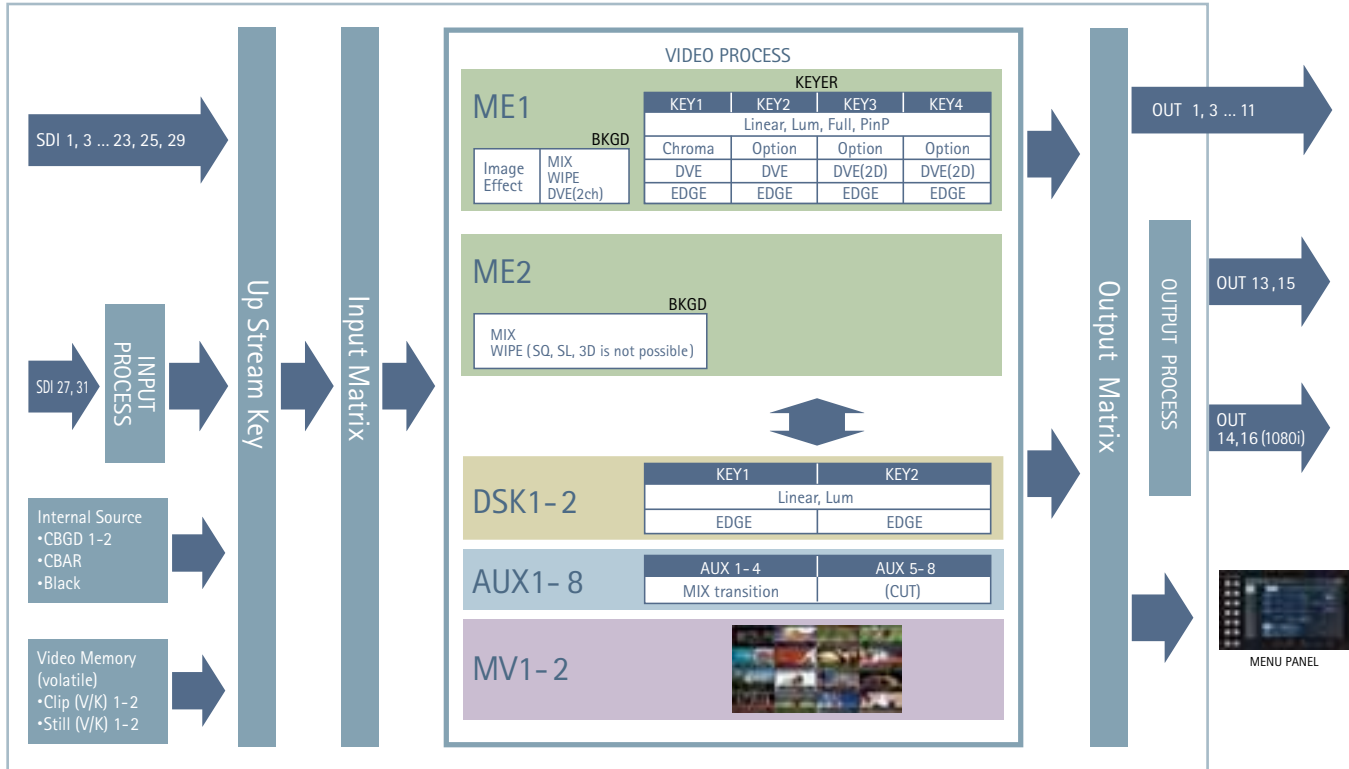

- KEY/DSK transition: operates KEY 1 to 4, DSK 1 to 4 AUTO, CUT transition of each ME
- Key preset: For KEY 1 to 4 and DSK 1 to 4 of each ME, register and access key preset

## AV-HS6000 Block Diagram (Standard mode)

## AV-HS6000 Block Diagram (3G mode)

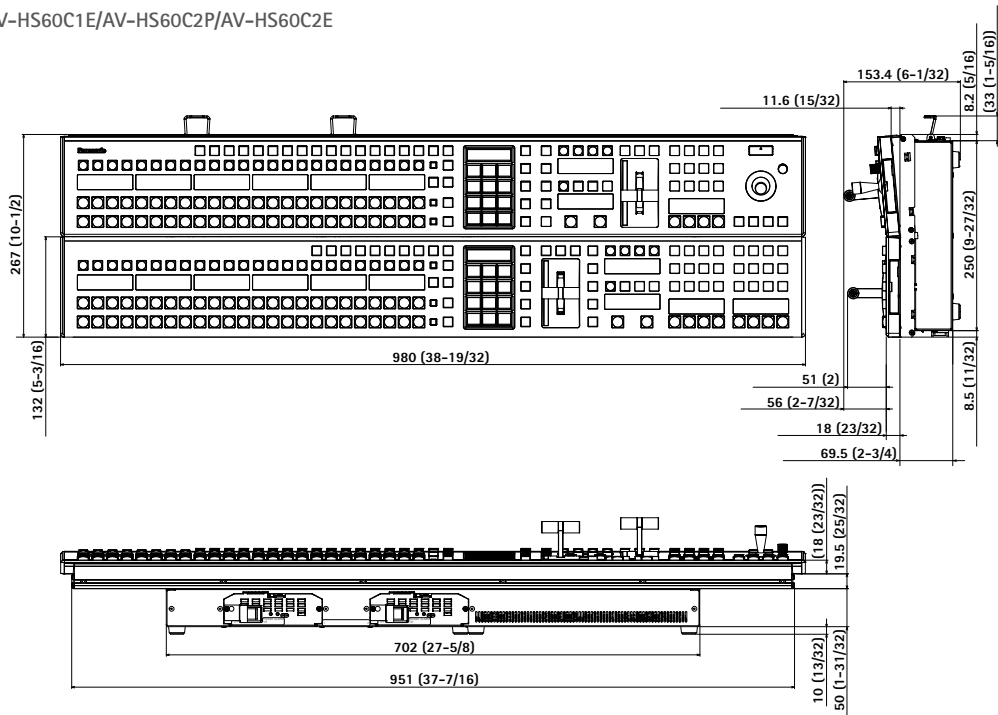

\* Input and output is by odd-numbered terminals only. \* 1080i format signals where half of the lines are thinned out from 1080p format signals are output from OUT14 and OUT16 terminals.

**Control Panel AV-HS60C1P/E, AV-HS60C2P/E**

Power Supply	AC100 V to 240 V, 50 Hz/60 Hz (AV-HS60C2 supports redundant power supply)
Power Consumption	40 W
Operating Ambient Temperature	0°C to 40°C (32°F to 104°F)
Operating Ambient Humidity	10% to 90% (no condensation)
Storage Temperature	0°C to 40°C (32°F to 104°F)
Storage Humidity	10% to 90% (no condensation)
Weight	AV-HS60C1: Approx. 13.0 kg (28.6 lbs.)(excluding accessories) AV-HS60C2: Approx. 13.9 kg (30.6 lbs.)(excluding accessories)
Dimensions(WxHxD)	980 mm×153.4 mm×267 mm (38-19/32 inches×6-1/32 inches×10-1/2 inches) (excluding protrusions)

**Control Terminal**

Mainframe Terminal	Compatible with 100Base-TX and AUTO-MDIX (For Mainframe AV-HS60U1/AV-HS60U2 connection) Connection cable (supplied with AV-HS60C1/AV-HS60C2): LAN cable (CAT5E), Straight cable, STP (Shielded Twisted Pair), 10 m (32.8 ft) • Connector: RJ-45 When connected to the <LAN> terminal, no video will be displayed on the Menu Panel AV-HS60C3G.
MENU PANEL Terminal	Used only for the Menu Panel AV-HS60C3G • Connector: DVI-D • Because an independent signal format is used, cannot be displayed on a DVI-D monitor. • Cannot be used concurrently with a DVI-D monitor (computer) connected to the <DVI-D> terminal. Select with the display selector switch.
DVI-D Terminal	Used for displaying menus to the DVI monitor • Connector: DVI-D • Monitor resolution: 1366×768 compatible monitor • Cannot be used concurrently with the <MENU PANEL> terminal. Select with the display selector switch.
USB Terminal	For DVI monitor menu operation • Connector: USB (type A, female) • Cannot be used for the Menu Panel AV-HS60C3G.
Display Selector Switch	Switch for selecting <MENU PANEL> terminal or <DVI-D> terminal
COM1(M) Terminal	RS-422 Control Terminal For master connection for controlling external devices • Connector: D-sub 9-pin (female), inch screw
COM2(RS-232) Terminal	RS-232 Control Terminal For external device control connections • Connector: D-sub 9-pin (male), inch screw
GPI I/O Terminal	GPI IN: 8 inputs, general-purpose, photocoupler sensing ALARM OUT: 1 output, open collector output (negative logic) GPI OUT: 10 outputs, selected from general purpose, tally Open collector output • Connector: D-sub 25-pin (female), inch screw
ME Number	2 ME

**Accessories**

- AC Cable -AV-HS60C1P: 1 cable, AV-HS60C2P: 2 cables  
-AV-HS60C1E: 2 cables, AV-HS60C2E: 4 cables
- LAN Cable: 1 cable (used to connect with the Mainframe AV-HS60U1/AV-HS60U2)
- Switch blank cap (large): 24 caps
- Switch blank cap (small): 12 caps

**Control Panel AV-HS60C4P/E**

Power Supply	AC100 V to 240 V, 50 Hz/60 Hz (Supports redundant power supply)
Power Consumption	40 W
Operating Ambient Temperature	0°C to 40°C (32°F to 104°F)
Operating Ambient Humidity	10% to 90% (no condensation)
Storage Temperature	0°C to 40°C (32°F to 104°F)
Storage Humidity	10% to 90% (no condensation)
Weight	Approx. 15.0 kg (33.0 lbs.) (excluding accessories)
Dimensions(WxHxD)	656 mm×160 mm×400 mm (25-53/64 inches×6-19/64 inches×15-3/4 inches) (excluding protrusions)

**Control Terminal**

Mainframe Terminal	Compatible with 100Base-TX and AUTO-MDIX (For Mainframe AV-HS60U1/AV-HS60U2 connection) Connection cable (supplied with AV-HS60C4): LAN cable (CAT5E), Straight cable, STP (Shielded Twisted Pair), 10 m (32.8 ft) • Connector: RJ-45 When connected to the <LAN> terminal, no video will be displayed on the Menu Panel AV-HS60C3G.
--------------------	--

MENU PANEL Terminal	Used only for the Menu Panel AV-HS60C3G • Connector: DVI-D • Because an independent signal format is used, cannot be displayed on a DVI-D monitor. • Cannot be used concurrently with a DVI-D monitor connected to the <DVI-D> terminal. Select with the display selector switch.
DVI-D Terminal	Used for displaying menus to the DVI monitor • Connector: DVI-D • Monitor resolution: 1366×768 compatible monitor • Cannot be used concurrently with the <MENU PANEL> terminal. Select with the display selector switch.
USB Terminal	For DVI monitor menu operation • Connector: USB (type A, female) • Cannot be used for the Menu Panel AV-HS60C3G.
Display Selector Switch	Switch for selecting <MENU PANEL> terminal or <DVI-D> terminal
COM1(M) Terminal	RS-422 Control Terminal For master connection for controlling external devices • Connector: D-sub 9-pin (female), inch screw
COM2(RS-232) Terminal	RS-232 Control Terminal For external device control connections • Connector: D-sub 9-pin (male), inch screw
GPI I/O Terminal	GPI IN: 8 inputs, general-purpose, photocoupler sensing ALARM OUT: 1 output, open collector output (negative logic) GPI OUT: 10 outputs, selected from general purpose, tally Open collector output • Connector: D-sub 25-pin (female), inch screw
ME Number	2 ME

**Accessories**

- AC Cable: 2 cables
- LAN Cable: 1 cable (used to connect with the Mainframe AV-HS60U1/AV-HS60U2)
- Switch blank cap (large): 16 caps
- Switch blank cap (small): 8 caps

**Menu Panel AV-HS60C3G**

Power Supply	DC12 V/0.54 A (Supplied from AV-HS60C1/AV-HS60C2/AV-HS60C4 using the supplied cable)
Power Consumption	6.48 W
Operating Ambient Temperature	0°C to 40°C (32°F to 104°F)
Operating Ambient Humidity	10% to 90% (no condensation)
Storage Temperature	0°C to 40°C (32°F to 104°F)
Storage Humidity	10% to 90% (no condensation)
Weight	Approx. 1.7 kg (3.7 lbs.) (excluding accessories)
Dimensions (WxHxD)	290 mm×177 mm×46.1 mm (11-13/32 inches×6-31/32 inches×1-13/16 inches) (excluding protrusions) 4RU

**Control Terminal**

Control Panel Terminal	Used only for the Control Panel AV-HS60C1/AV-HS60C2/AV-HS60C4 • Connectors: DVI-D • Because an independent signal format is used, DVI-D source cannot be displayed. • Cannot be used concurrently with a DVI-D monitor connected to the <DVI-D> terminal of the Control Panel AV-HS60C1/AV-HS60C2/AV-HS60C4. Set the display selector switch of the Control Panel AV-HS60C1/AV-HS60C2/AV-HS60C4 to the <MENU PANEL> terminal side.
------------------------	---

**Accessories**

- Connecting cable (with ferrite core) for the Control Panel AV-HS60C1/AV-HS60C2/AV-HS60C4 : 1 cable
- Bracket for mounting the Control Panel AV-HS60C1/AV-HS60C2/AV-HS60C4
- Screws for the bracket for mounting the Control Panel AV-HS60C1/AV-HS60C2/AV-HS60C4 : 6 screws

**Storage Module AV-HS60D1G**

Weight	Approx. 7.0 g (0.3 ozs.)
Dimensions (WxHxD)	29.85 mm×4.0 mm×50.8 mm (1-3/16 inches×5/32 inches×2 inches)

**Accessories**

- AV-HS60D1 Installation Guide

Due to device characteristics, the storage module AV-HS60D1G is subject to data damage and overwriting restrictions.  
Backup of important data is recommended.
