Micro Four Thirds 35-100mm Telephoto  
Zoom Lens / 70-200mm (35mm camera  
equiv.)

## TELEPHOTO

35-100mm / F2.8

# Brilliance from every angle

With an ultra-long range of 35–100mm (35mm camera equivalent: 70–200mm) at a high-speed F2.8, this lens lets you softly blur the background for portraits and close-ups. And it delivers high shutter speeds to freeze-frame fast-moving subjects such as action and sports. At the same time, its splash/dust/freezeproof design also makes it durable enough for shooting outdoors, so you can go out in nearly any weather with a splash/dust/freezeproof LUMIX camera and be creative.

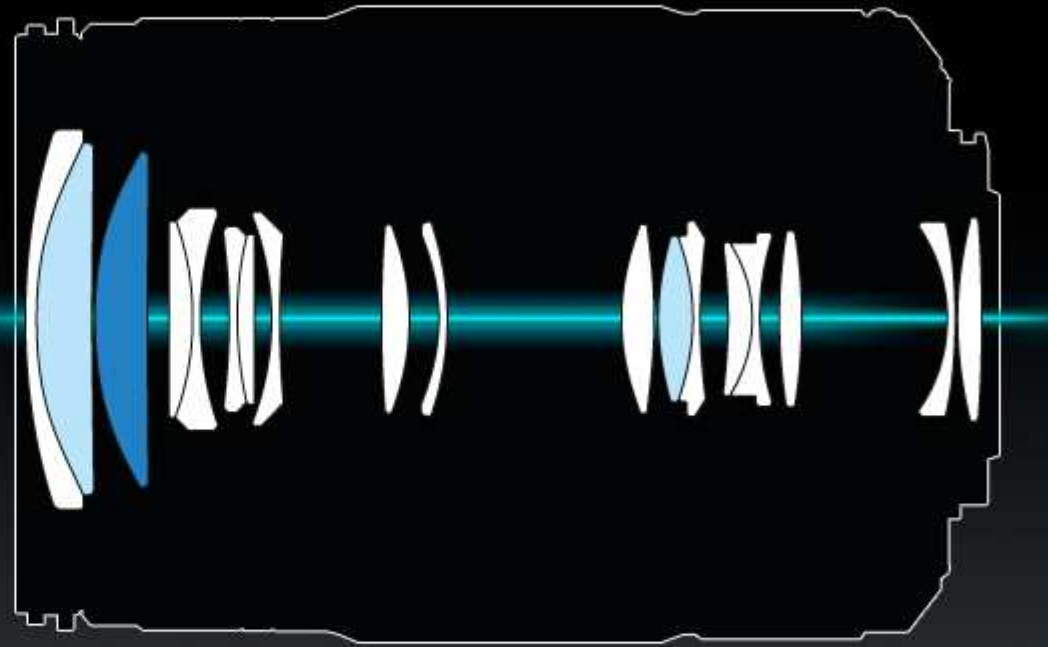

## W 135A35100

18 elements in 13 groups:

- 2 Extra-Low Dispersion lenses
- 1 Ultra Extra-Low Dispersion lens

Extra-Low Dispersion (ED) and Ultra Extra-Low Dispersion (UED) lenses correct chromatic aberration rendering sharp, high-contrast images with clear colors from corner to corner.
