

BC-2NF

The Portabrace Backpack Camera Case with cubed foam interior can carry camera, tripod, accessories and up to 17" laptop computer. An exterior tripod sleeve and cinch keep a tripod securely in place while carrying the case on your back. There are 2 side exterior pockets for carrying accessories like extra batteries or a flash. There's an additional pocket on the front of the backpack for storing additional accessories. The interior of the case is setup much like out popular hard cases with cubed foam.

You will receive your backpack with dual-layered cubed foam which can be cut to fit your equipment. The foam is designed to form-fit accessories of any kind including cords, lenses, cameras, flashes, chargers, and more.

The comfortable carrying straps are lined with breathable mesh to maximize air-flow and reduce perspiration.
