The black Cargo Case Camera Edition (CAR-PXWZ90) Sony PXW-Z90. For storing more gear, the bag features two exterior padded side pockets, two front and back exterior flat zippered pockets, and two front and back interior slip pockets.

When using the bag to carry smaller items inside the main compartment, you can use the included padded foam Camera Cradle, which stabilizes your camera during transport. The case also comes with two padded interior divider panels for organizing and protecting equipment and accessories.

The outside of the bag is made of 1000-D Cordura nylon and features suede accents. There is a skid-resistant waterproof bottom, as well as two solid steel clip rings for attaching the comfortable nylon strap (included). This case features reverse zippers that are sewn in upside-down for added durability. The zipper pulls are moved back to the top and function normally. You can carry your bag using the removable shoulder strap or the suede grip handles. Like all of our soft cases, the CAR-PXWZ90 is manufactured in Vermont, USA.
