## CBA-HM700

### DIMENSIONS

Weight: 1 lb / 0.45 kg

### DESCRIPTION

The CBA-HM700 is made from a high-durability "ultra-suede" micro-fiber nylon that combines the comfort of a suede-feel with the durability and protection of a nylon. Treated for high water resistance, padded with the same high-density foam, we've also added a third layer of protection, a "breathable" tech-mesh interior to permit maximum cameracooling while boosting shock-absorption in the event of unanticipated impacts. And unlike Neoprene, spandex, and Lycra fabrics used by other brands of camera cover manufacturers, our unique "ultra-suede" material is formulated and produced to resist the odors and dirt which can accumulate from routine use. <br><br><b>Please note, all purchases from Portabrace Direct are for US ship-to addresses only.</b>

### EQUIPMENT COVERED
