## PRODUCT BENEFITS

- carries your essential gear neatly
- compact, lightweight, protective
- Customizable solution
- Durable, 1000-denier Cordura
- Superior performance through simplicity of design

## TESTIMONIAL

*"Just wanted to thank you for an excellent product." -MM*

## DESCRIPTION

The (CTC-4 series) TRAVELER CAMERA CASE is the largest of the 3 sizes. It fits cameras with many accessories or a long lens added to it. (example: matte box, IDX or Anton Bauer battery, Fire Store Unit, long microphone). It fits popular cameras such as the Canon XL-2, XL-H1, JVC GY-HD250 and the Sony PDW-F350, F355. The new SLIP-NOT bottom adds an extra layer of protection against water, dirt and grime with an easy wipe-off surface. Reinforced layers of lightweight plastics and thick foam protect the camera from normal bumps and everyday handling. The viewfinder cavity has an extra measure of protection for the viewfinder. The long pocket under the viewfinder area holds tapes, batteries and even some battery belts. A new zipper facing has been added to keep the "self healing", heavy duty, YKK™ zippers from accidental damage (and if you leave the case out in the rain, less water is likely to migrate into the main compartment). Mesh pockets for airline tickets
