The HB-40CAM-C Shoulder Strap with CAM-C Camera Clips is a heavy-duty, non-slip suede shoulder strap made to carry broadcast / ENG style camcorders. It has a single-piece, strong Nylon web construction with a wide, padded design for extra comfort while carrying a heavy camera. The strap shape is contoured and designed to fit comfortably in the hollow of the shoulder. It uses fail-safe stainless steel clips---called CamC clips---to attach to the camcorder posts directly.
