 / Tungsten 200 W

PRODUCT BENEFITS

- Comfort and protection
- Flexibility of equipment carried
- Mix and match lights
- Mobility and compactness
- Use with compact light stands

DESCRIPTION

Flexibility and compactness are the goal of many lighting crews. The Light Run Bag (LR-2) is designed for compact stands and two large heads, each with separate compartments. Extra space above is provided for a last minute extras to be thrown in on top. Ample exterior pockets will hold AC cords, cables, gel rolls and reflectors. The 2 hard dividers create up to 3 compartments for heads or they can be folded out of the way to make one large compartment or two spaces. Hand grips at the center and at each end make it easy to handle and the heavy duty suede leather shoulder strap provides you some comfort. The protective zipper facing helps keep the compartment clean and dry. (See below for optional accessories)
