The PB-BLMG is a soft Veltex carrying pouch for the Blackmagic Pocket Cinema Camera. There is a zipper along the top to secure the camera inside the pouch. The durable nylon-cord wrist-strap has a cinch component to prevent the camera from slipping off your wrist when you're on the move.

Carry the pouch by itself or use it for extra protection in your suitcase or larger camera case. The soft Veltex exterior can be attached using Velcro® to the inside of most larger Porta-Brace camera or carrying cases.
