The QRS-UX180 is custom fit to the Panasonic AG-UX90 camera. Velcro-sealed flaps, clear vinyl windows and zippered openings provide maximum protection and optimum ease of operation. Special triple-layer, tricot finished, Parapack nylon is used around the body of the camera to repel water at the case surface.

The "Quick" cover is designed to easily be put on and taken off of the camera. An opening along the bottom of the cover allows the camera operator to insert his hand to hold the camera and operate the camera controls.
