Product Description

The RIG-MINI has an ultra-light design, featuring dual-rigidity foam for maximum equipment protection. It is designed to fit the Blackmagic URSA Mini. This rugged case is constructed using long-life materials including 1000-denier Cordura® nylon and solid steel clip rings. Reversed zippers and a slip-not anti-skid waterproof bottom panel are used for increased water-resistancy and durability.

The off-road wheels roll smoothly over almost any surface. The wheel system includes strong steel axles, solid rubber wheels, and ball bearings.

Arrive at your venue in Shoot Ready format knowing everything you need is packed, organized and accessible. The 9" interior height allows for shoot-ready equipment configurations and the easy-open, quick-draw design means you'll never miss the shot. There are front and back slip pockets for carrying SD cards, documents, cords, and white balance cards. The 2 side pockets are perfect for batteries, extra flashes, and cords.
