RS-33

Porta-Brace, Inc.
P.O. Box 220
North Bennington, VT
Phone: 802-442-8171
Fax: 802-442-9118

DIMENSIONS

Weight: 1.5 lb / 0.68 kg

DESCRIPTION

The Rain Slicker cover for broadcast cameras, has several specialized design features. An expandable back end for various batteries and wireless receivers, a spare pocket for lens cap storage, (see: LC-55X65 for example) a wider clear vinyl window on the operator side, an extra no slip pad for extra comfort and support and a limited hook & loop closure at the base instead of a long zipper. A zipper at the view finder area makes installation easier; accommodating 1-1/2" to 2" eye piece view finders. (type: VF in model# window for Studio VF) A zipper access to zoom control when reaching over the camera. The lens area has a non-slip material to grip the lens shade. The extra Porta Brace shade keeps more water out and can be formed to fit most square hoods. The fabric materials are a special formulation of waterproofing and fabrics, similar to the Storm Coat and Rain Slicker product groups. (Many Custom Patterns have been developed for "Box style"
