Protect your Blackmagic Cinema Camera from rain and dust. The RS-BMGC is made from Nylon Taslan material and complemented by a soft tricot interior that won't scratch your equipment. The Taslan material is both waterproof (1000MM waterproof rating) and breathable (1000G/M² breathability rating), which keeps the camera dry while also preventing the camera from overheating.

A clear Vinyl window provides an unobstructed view of the controls. The RS-BMGC comes with front-end options for both a standard lens or matte box.
