Protect your Canon C300 or C500 from rain and dust. The RS-C3500 is made from Nylon Taslan material with a soft tricot interior that won't scratch your equipment. The Taslan material is both waterproof (1000MM waterproof rating) and breathable (1000G/M² breathability rating), which keeps the camera dry while also preventing the camera from overheating.

A clear Vinyl window provides an unobstructed view of the controls.

The RS-C3500 can be used with view-finder and shoe-mount grip in place.
