The Compact HD Rain Slicker (RS) is custom fit to each Sony camera model. Velcro-sealed flaps, clear vinyl windows and zippered openings provide maximum protection and optimum ease of operation. Special triple-layer, tricot-finished, nylon is used around the body of the camera to repel water at the case surface.

Cameras with fold-out video screens are shrouded with a black fabric hood that makes viewing LCD monitors easier on sunny days.

Be sure to check the Equipment Covered tab to select the Rain Slicker for your camera.
