- Padded travel case for viewfinder
- Quick access to camera
- Tough side walls and frame

TESTIMONIAL

"The versatility of the Porta-Brace cases allowed the crew to set up a system of compact organization allowing everything to travel with quick access and full protection." - RG

DESCRIPTION

The SMUGGLER CAMERA CASE is designed to be used in the field as well as for hand carrying your camera during air travel. It is rigid and well padded for maximum protection. The case compresses and will fit most airline overhead compartments (or use the seat belt, if there is an empty seat). Soft padded fleece lined pouches, foam blocks and a special divider protect items removed from the camera. It transforms back into a fully functional, in-the-field camera case upon arrival. A comfortable shoulder strap, a black leather hand grip, white balance card and small light for night work are all part of the detailing.
