Cabinet Speaker, 10 W, 100 V, white, with control

Rating: Not Rated Yet

Price:

[Question on item?](#)

Description The RCS speakers have been developed according to the latest knowledge in plastic technology. The high-quality impact and a scratch resistant plastic corpus ensure best boom and swing release.

This "soft line" corpus design combined with a high-sound pervious grille cover is modern and decent.

A broadband high performance speaker chassis (dia. 165mm) with an integrated high tone cone and high-quality matching transformer ensures brilliant music playback and excellent speech reproduction

These cabinet speakers are also available with a fitted volume control (on the lower ohm side).

The control is positioned underneath (lateral, if speaker is mounted horizontally).

The control axis can be adjusted with a screwdriver after taking off the cover cap. It is possible to operate the selector by using the enclosed knob. This only has to be pushed on the axis.

Features

- Mounting is very simple. The grille can be lifted off by a screwdriver in order to have access to the fixing screws.
- The plastic cover is impact and scratch resistant and is available on request in all RAL colours.
- The fixing is burgle proof and can be mounted horizontally, vertically or to the ceiling.

- There is room in the cabinet to mount relays, if necessary.
