Cabinet Speaker, 6 W, 100 V, white, with control

Rating: Not Rated Yet

Price:

[Question on item?](#)

Description The RCS speakers have been developed according to the latest knowledge in plastic technology. The high-quality impact and scratch resistant plastic corpus ensures best boom and swing release. This "soft line" corpus design combined with a high-sound pervious grille cover is modern and decent. A broadband high performance speaker chassis (Ø 130mm) with an integrated high tone cone and a high-quality matching transformer ensure brilliant music playback and excellent speech reproduction. These cabinet speakers are also available with a fitted volume control (on the lower ohm side). The control is positioned underneath (lateral, if speaker is mounted horizontally). The control axis can be adjusted with a screwdriver after taking off the cover cap. It is possible to operate the selector by using the enclosed knob. This only has to be pushed on the axis.

Features

- Mounting is very simple, the grille can be lifted off with a screwdriver in order to have access to the fixing screws.
- The plastic cover is impact and scratch resistant and is available on request in all RAL colours.
- The fixing is burgle proof and can be mounted horizontally, vertically or to the ceiling.
- In the cabinet is enough free space to install additional relays, if necessary.
