

CDR-10USB

CD/MP3-Tuner module, incl. RDS-Tuner, CD-/MP3-Player and USB interface

Description

Description

The CDR-10USB MP3/CD player and FM/AM tuner module has been especially developed for installation in the compartment provided for this purpose on the PA centers. However, it is also possible to install the module in other devices such as amplifiers, central audio units, etc. The respective installation instructions are supplied with the device.

Features

- The features of the CD player section are identical with the CDP-10USB module above.

- The features of the tuner section are the same as the ones of the TP-10 module described above.
- USB interface
