

19" DVD PLAYER

Description

The DVD player DVD-200 X is supplied in a 2U housing and is therefore ideally suited for use in 19" ELA control centers.

The device plays all common audio formats such as MP3, CD-R or CD-RW. The DVD player also supports all standard operating functions as found in high-quality DVD/MP3 players. A standard remote control is included in the delivery.

The multifunction display with progress indicator constantly informs you about the current playback status.

Please note the following features:

- HDMI, RCA and USB 2.0 connection
- Control panel on the front of the device, for controlling it if the included remote control is not at hand.
- Supported disk media: CD, CD-R/RW, DVD, DVD-R/RW, DVD+R/RW

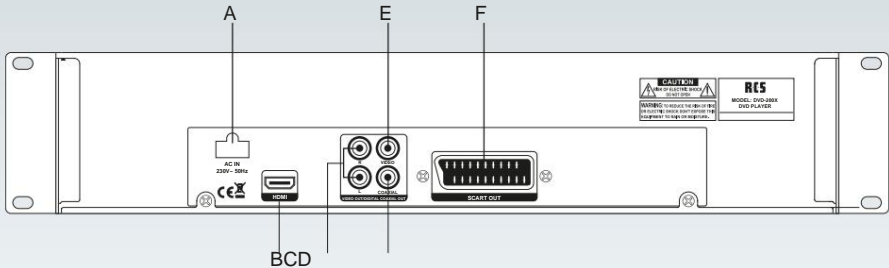

- USB input on the front panel for playback of multimedia content of a USB stick.
- Supported file formats: MPEG1, MPEG2, MPEG4, JPEG, VCD, MP3, WMA, Audio CD, DIVX, Xvid
