Electret Cudgel Microphone, with Phantom-Power

Rating: Not Rated Yet

Price:

[Question on item?](#)

Description The ECM-400 is a tube-directivity microphone in the shape of a cudgel (shotgun) with excellent directivity characteristic. This microphone has a brilliant consonant-comprehensibility offering ideal premises for universal usage. Even sound sources which are further away can be amplified with no problem. A wind deflector and a microphone holder are included in scope of delivery.
