VARES-1000 Fire Brigade Hand Microphone

Description

Description

The handheld microphone is electronically monitored compliant to VDE 0828/IEC 60849. Measured values of the microphone cap, the entire signal path and the press-to-talk bar are detected and analysed.

The direct connection with VARES is made by a 4-pin shielded cable. The handy, coloured housing with its lateral press-to-talk bar is optimized for its special purposes.
