

PZM-310 B

>VARES-3000< Ten-Keys Pad, (for PDM-208 B), digital

Description

Description

Ten keys pad as extension unit of the substation PDM-208A, for selection of single or less used zones. By the use of the PZM-310, the substation remains compact and clear.

All speaker lines are separately selectable. Similarly speaker groups can be configurated. The background music of each line can be independently enabled or disabled.
