

RC-120C

Mounting Speaker, 45/20 W, 100 V, 2-Way-System, white

Description

Description

This newly developed speaker has the easiest and most modern type of fixing available, a "QUICK-TIGHT" clamp. This sets new standards for security and simplicity.

Four screws to mount or demount. Lifting of the grille with a screwdriver is all that is necessary. The installation frame is made of high quality

plastic, the grille of coated steel. The construction is burgle proof and impact resistant.

The models RC-110 C, RC-120 C and RC-130 C are identical to the model described on the opposite side.

They are larger in measurement and proportion. It is therefore possible to insert a high-quality 6 1/2" 2-way coaxial chassis. This 2-way coaxial chassis has a very wide band basic membrane with a separate tweeter integrated.

This coaxial speaker chassis fulfills the professional demand for sound pressure and tone reproduction. Maximum capacity 40 W. A high-quality matching transformer supplies best music and speech quality.

Features

- Modern, discreet design with a rim height of approx. 2 mm.
- High-quality wide band 5 1/4" chassis with an integrated tweeter.
- The speaker is available impregnated, with a specially prepared chassis and matching transformer.
