

Three 2/3-inch Power HAD FX CCD sensors portable HD / SD camera for digital triax operation and large lens options

The HSC-300RT incorporates digital triax technology and is equipped with sophisticated 16-bit A/D conversion circuitry as well as superb three 2/3-inch CCDs to bring out a high level of picture quality over conventional digital triax infrastructures. The camera also has a built-in high-quality down-converter for superior SD images, as standard. It also incorporates Neutral Density (ND) and Colour Correction (CC) optical servo filter units.
