

LPM-770BP

7-inch portable LCD field monitor

Overview

The highly portable LPM-770BP LCD monitor can be used in a range of applications to help you achieve perfect shots every time. This versatile 7-inch* monitor can be used on-camera** as a large screen electronic viewfinder or as a confidence monitor for directors and is perfect for use with a crane or camcorder remote.

The LPM-770BP supports the creative vision of the user with a number of features designed to ensure fantastic footage can be easily captured. A range of markers makes the framing of shots simple, whilst the coloured peaking and video level marker functions help ensure sharply focused and perfectly exposed images respectively.

The LPM-770BP features a range of inputs including one HDMI and one Component input as well as two Composite inputs which can be used to display picture and picture mode. The monitor can be powered using NP-F970 or other L series batteries as well as by using the 12V DC input, giving you even more operational flexibility.
