SBS-32G1

Designed to enhance XDCAM EX format, SxS-1 memory card is perfect for videographers looking to capture and edit in high definition at an affordable price.

- Fully compliant with the ExpressCard™ industry standard
- High capacity of 32GB & super fast data transfer speed (800Mbps) at an affordable price
- An approximately 5 year estimated life when recording at full capacity once per day
- Users can check the card life on their PMW-EX1R and PMW-350 camcorders and even see an alarm when the data rewriting limit is reached.
- Fully compatible with the PMW-EX1R and PMW-350 camcorders. Compatibility with older EX equipments is planned for early 2010.

Technical Specifications

Format	
Recording Capacity (GB)	32
ExpressCard/34 Interface	YES
USB2.0 ExpressCard interface	NO
Transfer speed (MB/s)	100

Environmental Requirements	
Operating Conditions (degrees F)	-13~149
Operating Conditions (degrees C)	-25~65
Operating Conditions (% RH)	to 95
Storage Conditions (degrees F)	-40~185

Storage Conditions (degrees C)	-40~85
Storage Conditions (% RH)	to 95

Reliability & Durability	
Shock Absorbtion (cm)	150

General Characteristics	
Width (mm)	34
Height (mm)	5
Depth (mm)	75
Weight (g)	~27
Master Carton Quantity (piece)	5
