

VCT-PCM1
Tripod Stand for Linear PCM Recorders

The VCT-PCM1 tripod stand is made of robust aluminum material. It supports angle-free recorder setting and helps reduce table-top acoustic reflections by raising the recorder 6" up from the surface.

- For use with PCM-D1 and PCM-D50 linear PCM recorders
- Tripod stand helps reduce table-top acoustic reflections by raising the recorder 6" up from the surface
- With tripod legs closed, this stand also is useful for hand-holding the recorder (while recording) to eliminate touch noise
