VT720W Waterproof Sports Headworn

VT720W Waterproof Sports Headworn

Ideal hands-free microphone for instructors of sports and aerobics as well as television field reporters for wireless transmission and amplification voice.

The microphone is waterproof. The condenser microphone capsule is a highly efficient noise canceller, which prevents feedback from loudspeaker, or interference from crowd-noise, motor, shooting etc. The headband behind the neck is adjustable.

VT720 Specifications:

Generating Element:	Back Electret Microphone
Polar Pattern:	Bi-Directional
Frequency Range:	300Hz-5kHz (1cm close talking)
Sensitivity (3wire):	6mV per Pa
Noise level:	26dB "A" weighted
Max. Input SPL:	120dB SPL
Impedance:	3kOhm
Bias/+VDC:	1.3V - 20V
Current Drain:	50 uA
Color:	black
Cable:	Length 1.4m Ø 1.5mm
Weight:	50g
Wiring Configuration:	red: "+" BIAS white: signal (Audio) silver: ground (Shield)

Frequency Response:
