Bridgeplate Adapter (URSA) adapts the Blackmagic URSA Camera to any tripod plate or ARRI standard bridgeplate such as **Unified Bridgeplate (19mm)** (/Product-p/223100.html) or **Unified Bridgeplate (15mm Studio)** (/Product-p/223200.html). The Bridgeplate Adapter can also work with ARRI brand items like BP-8 and BP-9 (it may not work with some of the much older models). When studio rods are not needed, a **Dovetail Clamp** (/Product-p/156700.html) can be added instead to interface with **2060 Dovetails** (/Product-p/143600.html), **Safety Dovetails** (/Product-p/151200.html), or **Shoulder Rigs** (/Category-s/250.htm).

Remove wedge from URSA bottom prior to installation.

SPECIFICATIONS:

Weight: 28g (0.1 lbs)

Dimensions: 86.6 x 59.9 x 2.9 mm (3.4 x 2.4 x 0.1 in)
