Wooden Camera brand V-Mount plate utilizing an IDX V-Mount and Sony PXW-FS7 DC connector.

This model also works with Sony EX3 cameras.

Cable exits the right side of the plate allowing neat looping and insertion into the camera. Length allows minimal cable excess while still being able to reach positions further away from the camera as necessary. For an adjustable mount system attached to rods, use the **Battery Slide** (</Product-p/156600.html>) or **Recorder Slide** (</Product-p/191100.html>) paired with the appropriate Rod Clamp: **Rod Clamp (15mm LW)** (</Product-p/150200.html>), **Rod Clamp (15mm Studio)** (</Product-p/150300.html>), and **Rod Clamp (19mm)** (</Product-p/150400.html>).
